PRAWIN KUMAR N

Erode, Tamil Nadu • +91 8807054164 • prawinkumar2k4@gmail.com • linkedin.com/in/prawinkumar-n • github.com/prawinkumar2k

SUMMARY

Full Stack Developer with hands-on experience in building and deploying real-world ERP and SaaS applications. Skilled in MERN stack (MongoDB, Express.js, React.js, Node.js) as well as PHP, JavaScript, and MySQL, with a strong understanding of database design and scalable system architecture.

Developed and deployed live applications including Hospital Management Systems and Campus ERP platforms used in real-world environments. Experienced in building responsive user interfaces, backend APIs, and database-driven systems. Passionate about solving real-world problems, writing clean code, and continuously learning modern technologies.

WORK EXPERIENCE

Software Developer / ERP System Developer **2025 – Present**

SearchFirst Technologies | Erode, Tamil Nadu

- Developed full-stack ERP and SaaS applications using MERN stack (MongoDB, Express.js, React.js, Node.js)
- Designed scalable backend APIs and system architecture using Node.js and Express.js
- Built responsive user interfaces using React.js
- Worked with MongoDB for database design and data management
- Contributed to deployment and maintenance of production-level applications

Web Developer Intern **2025**

SHENai Private Software Solutions | Erode, Tamil Nadu

- Developed dynamic web applications using PHP, MySQL, HTML, CSS, and JavaScript
- Implemented backend logic and database connectivity
- Improved UI/UX using responsive design principles

Open Source / Personal Projects **2024 – Present**

GitHub | Remote

- Developed real-world applications including ERP systems and SaaS platforms
- Built and deployed Hospital Management System and Campus ERP solutions
- Designed database schemas and implemented REST API integrations
- Focused on scalable architecture and real-world problem solving

EDUCATION

Bachelor of Technology (B.Tech) – Artificial Intelligence and Data Science **2023 – Present**

Nandha Engineering College, Erode, Tamil Nadu

- Relevant Coursework: Data Structures, Database Management Systems, Machine Learning, Artificial Intelligence

Higher Secondary Certificate (HSC) **2021 – 2023**

Sri Ganga Higher Secondary School

- Focused on Mathematics, Physics, and Computer Science

PROJECTS

Hospital Management System

Tech Stack: React.js, Node.js, Express.js, MySQL

Description:

- Developed a full-stack hospital management system for patient records, appointments, and billing
- Built RESTful APIs using Node.js and Express.js for backend operations
- Designed responsive UI using React.js for doctors and admin dashboards
- Integrated MySQL database for structured data management and optimized queries
- Deployed the application for real-time usage in a live environment

Enterprise Payroll Management System

Tech Stack: Node.js, Express.js, MongoDB, React.js

Description:

- Built a scalable payroll system to manage employee salaries, attendance, and payslips
- Implemented secure authentication and role-based access control
- Designed backend APIs for salary processing and employee data handling
- Optimized database operations for faster payroll calculations
- Currently deploying the system for real-time enterprise usage

Campus ERP System

Tech Stack: PHP, SQL Server, JavaScript, Bootstrap

Description:

- Developed ERP modules for student management, attendance tracking, and academic records
- Integrated SQL Server database for handling large-scale institutional data
- Built dynamic dashboards and reporting features for staff and administration
- Designed scalable backend architecture for real-time data updates

Smart Attendance Management System (RFID Based)

Tech Stack: Arduino, RFID, PHP, SQL Server

Description:

- Developed an automated attendance system using RFID-enabled ID cards
- Recorded attendance on an hourly basis with real-time database updates
- Built a web portal to monitor attendance, generate reports, and track performance
- Improved accuracy and reduced manual attendance errors

Autonomous Smart Car with AI Integration

Tech Stack: Arduino UNO, ESP8266, ESP32, Python, IoT, AI

Description:

- Designed a multi-functional autonomous vehicle with smart control capabilities
- Implemented Bluetooth-based control and human-following using IR sensors
- Developed RFID-based access control for enhanced vehicle security
- Integrated AI voice assistant for engine control and command execution
- Built a real-time alert system for unauthorized access and movement detection
- Planned AI integration for travel history, service tracking, and intelligent monitoring

SKILLS

- **Languages:** Python, JavaScript, PHP
- **Frontend:** HTML, CSS, React.js, Bootstrap
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, MySQL, SQL Server
- **Cloud & Deployment:** AWS (EC2), VPS Hosting, Deployment, Server Management
- **Tools:** Git, GitHub, VS Code, SSMS
- **Concepts:** REST APIs, System Design, DBMS, Object-Oriented Programming (OOP)

ACHIEVEMENTS

- Won "Unique Project Award" at Nandha Engineering College for innovative project development
- Successfully deployed live ERP systems used for real-time operations and management
- Developed multiple real-world full-stack and IoT-based projects with practical implementation
- Gained hands-on experience in end-to-end project development including design, development, and deployment

---

CERTIFICATIONS

- Full Stack Web Development Certification
- Covered frontend and backend development using modern web technologies including React.js, Node.js, and databases
- Python Programming Certification
- Gained strong foundation in Python programming, problem-solving, and application development
- Artificial Intelligence & Machine Learning Certification
- Learned core concepts of machine learning, data analysis, and predictive modeling
- Internship Certificate – SHENai Private Software Solutions (Aug 2024)
- Completed internship with hands-on experience in software development and real-time project implementation
- Web Development / Database Management Training (if applicable)
- Worked with SQL Server, MySQL, and backend integration for real-world applications
