PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 1+ year of professional experience building and deploying scalable web applications across government, healthcare, ERP, and SaaS domains. Proven track record delivering production-grade systems serving 50,000+ end users with 99.9% uptime. Deep expertise in MERN Stack (MongoDB, Express.js, React.js, Node.js), REST API development, MySQL/MongoDB optimization, and end-to-end server infrastructure management — including physical dedicated server setup from OS installation to production. Adept at multi-role RBAC systems, third-party payment gateway integrations, and Agile delivery. Currently pursuing B.Tech in AI & Data Science with active interest in backend engineering and cloud-native development.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, PHP

Frontend: React.js (React 18 + Vite), HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design

Backend: Node.js, Express.js, REST API Design, JWT Authentication, RBAC, PHP

Databases: MySQL, MongoDB, SQL Server, Sequelize ORM, Schema Optimization, Query Performance Tuning

Server & DevOps: Physical Dedicated Server Setup, OS Configuration (Ubuntu/Linux), Hostinger VPS, Nginx, PM2, UFW Firewall, SSL/Certbot, Server Deployment, Azure (Learning)

Tools & Practices: Git, GitHub, Postman, VS Code, SSMS, Docker (Basic), System Design, SDLC, Agile, IoT Integration

WORK EXPERIENCE

Software Developer — ERP & Full Stack

Jan 2025 – Present

SearchFirst Technologies · Erode, Tamil Nadu

- Architected and deployed a Tamil Nadu Government admissions portal (DOTE) serving 50,000+ students statewide, with zero critical downtime since launch — managing full dedicated server infrastructure including OS installation, Nginx reverse proxy, PM2 process management, UFW firewall, and SSL via Certbot
- Engineered multi-role RBAC (Role-Based Access Control) systems and server-side business logic across government and enterprise platforms, reducing manual administrative workload by 60%
- Integrated CCAvenue payment gateway enabling 100% digital fee processing — eliminated all paper-based payment workflows for government-scale operations
- Designed and optimized RESTful APIs using Node.js and Express.js; tuned MySQL and MongoDB schemas and queries, achieving 40% improvement in database query performance across production systems
- Delivered and maintained 5+ full-stack applications spanning ERP, healthcare, and payroll domains as the sole or lead developer on each system

Web Developer Intern

Jun 2024 – Dec 2024

SHENai Private Software Solutions · Erode, Tamil Nadu

- Built 3+ client-facing web applications using PHP, MySQL, HTML5, CSS3, and JavaScript; implemented backend business logic and relational database integrations, reducing manual reporting time by 25%
- Improved application UI performance and responsiveness by 30% through systematic debugging, code refactoring, and front-end performance profiling
- Collaborated directly with clients to gather requirements and deliver iterative releases within tight timelines

Full Stack Developer — Personal & Open Source

2023 – Present

Independent / GitHub

- Independently designed and shipped 5+ production-grade full-stack applications across healthcare, payroll, ERP, and IoT domains, demonstrating end-to-end ownership from architecture through deployment

KEY PROJECTS

Government Admissions Portal — DOTE, Tamil Nadu [Production]

Jan 2025 – Present

Tech Stack: React 18 + Vite, Node.js, Express.js, MySQL, Sequelize ORM, CCAvenue Payment Gateway, Nginx, PM2

- Government-scale admissions portal serving 50,000+ students statewide; independently managed full dedicated server lifecycle from OS install to live production with 99.9% uptime
- Implemented 3-role RBAC, gender/hostel-based server-side college filtering, and digital payment gateway — replaced 100% of legacy paper-based processes

Campus ERP System — Nandha Engineering College [Production]

Jan 2025 – Present

Tech Stack: *PHP, SQL Server, JavaScript, Bootstrap*

- Full-scale institutional ERP managing 1,000+ student records, attendance tracking, and academic reporting — delivered under a certified 1-year commercial engagement

Hospital Management System [Production]

2025

Tech Stack: *React.js, Node.js, Express.js, MySQL*

- Healthcare platform for patient records, appointment scheduling, and billing — reduced manual data entry by 70% with role-based dashboards for clinical and administrative staff

Enterprise Payroll Management System [Production]

2025

Tech Stack: *Node.js, Express.js, MongoDB, React.js, Tailwind CSS, JWT*

- Payroll and HRMS platform with JWT auth, 3-role RBAC, and salary processing APIs for 100+ employees; optimized MongoDB schemas and indexes — reduced query execution time by 35%

Smart Attendance System — RFID IoT [Award Winner]

2024

Tech Stack: *Arduino, RFID, PHP, SQL Server*

- IoT-based attendance automation for 200+ students using Arduino RFID hardware; awarded Best Unique Project — Innovation Day 2024 — eliminated 100% of manual attendance recording

EDUCATION

B.Tech — Artificial Intelligence & Data Science

2023 – Present (Final Year)

Nandha Engineering College, Erode, Tamil Nadu | Anna University Affiliated

CERTIFICATIONS & ACHIEVEMENTS

- Full Stack Web Development — Udemy (2023) | Python Programming — Coursera (2023) | AI & ML — NPTEL (2024)
- Internship Completion Certificate — SHENai Private Software Solutions (2025)
- 1-Year Experience Certificate — Nandha Engineering College (2025)
- Winner — Best Unique Project, Innovation Day 2024 (RFID IoT Smart Attendance System)
- Delivered live government-scale portal for DOTE, Tamil Nadu — 50,000+ users, zero critical downtime, full server infrastructure owned end-to-end
